

For over 25 years, Astro has provided a safe, robust, and proven lifting solution for a variety of industrial and construction applications. Now the NEXT generation Astro E2200 - the best-in-class 2,200 lb load capacity hoist with integrated safeties - offers a perfect lifting solution for your most challenging heavy industrial and commercial installation and maintenance project requirements.

Astro E2200:

The NEXT generation Astro 2,200 lb (1,000 kg)
Robust, Proven, Reliable - a perfect lifting solution

Features	Benefits
Integrated safeties	Built into the body of the hoist, ensure operator safety by eliminating risk of omission or poor install, and reduce number of SKUs that need to be tracked in fleet
Longest duty cycle in its class	Provides operator confidence to finish the job
Load dependent traction	Offers extended wire rope life
Robust castings and wire rope path	Minimize hoist damages in case of rope jams
Modular construction	Allows flexibility for power pack replacement and enables quick service time
Ergonomic handles	Make it easy to position on the work platform
Standard visible hour meter	Conveniently located to help determine next service
Worldwide network of Power Climber dealers	Allows faster response time, shorter lead time and reduces cost to inventory spare parts, lowering the total cost of ownership; Also makes project, technical and engineering support available locally 24/7

Astro

Made in our ISO 9001:2008 facility.

Service available world wide through our network of Power Climber dealers.

Specifications	American model	EU model (CE)
Capacity	2200 lb	1000 kg
Power	230V/60Hz 3Ph 400V/60Hz 3Ph 30A circuit	400V/50Hz 3Ph 30A circuit
Travel speed	Single speed, 35 ft/min	Two speed, 9/18 m/min
Wire rope	3/8 in. (9.5 mm), 4x26 15000 lb breaking strength	10.2 mm, 5x26 8800 kg breaking strength
Weight	150 lb	65 kg
Dimensions	24 in. tall x 20 in. wide x 15 in. deep	610 mm tall x 545 mm wide x 380 mm deep
Controls	Hoist mounted controls Optional pendant	Central control box Optional pendant
Noise level	80 dBA at 1m	
Traction principle	Load dependent traction principle	
Safeties	Integral to hoist Overspeed, Slack Rope, Overload	
Top limit switch	Optional	Standard

Additional Available Models

Americas	E1000 (1000 lb)	E1500 (1500 lb)	NEW E2200 (2200 lb)
CE/Europe	E86 (600 kg)	E89 (800 kg)	NEW E1010 (1000 kg)

Need Customization?

Astro E2200 allows simple modification of controls, pendant or mechanical interface to fit your unique heavy lifting needs.

Power Climber

Power Climber has been engineering and manufacturing hoists, platforms, rigging equipment, safety gear and accessories for the suspended access industry since 1972. With facilities in North America, Europe and Asia, Power Climber distributes its reliable network of products to world-class facility owners and best-in-class rental companies across the globe.
